in Saskatchewan**

Free, family-friendly activities

WHAT IS CULTURE DAYS?

Culture Days is a national collaborative movement designed to **raise the awareness, accessibility, participation and engagement** of Canadians in the arts and cultural life of their communities. It takes place the last weekend in September each year. Since 2009, Culture Days has been hosted across the country by thousands of communities eager to engage citizens in active cultural experiences that inspire creativity, generate new interests, contribute to life-long learning and ultimately, build community! Culture Days has become the largest and most effective arts and cultural public engagement in Canada's history!

Since its inception, over 100 Saskatchewan communities have hosted over 1,000 activities, engaging over 200,000 people in cultural activity over the three day weekend. In Canada, over 8 million Canadians have taken the opportunity to engage in one or more of the 50,000 registered Culture Days activities. Saskatchewan officially proclaims Culture Days each year, in addition to the communities that make municipal proclamations!

IT'S AN OPPORTUNITY!

Cultural activity is alive in Saskatchewan 365 days a year! Culture Days is just an opportunity to raise awareness of the cultural life in your community! From tipi-raising to printmaking, to story-telling to walking tours, there are hundreds of **free, interactive cultural activities** taking place around the province...some are right in your community. Many events and activities are family-friendly and offer a great opportunity to make some great connections in your community. Grab a mic and sing, or write a poem. Last Mountain Lake Cultural Centre

Regina Beach has a rich history of being a place of rest and recreation for over 100 years. Much of this history has been captured in photographs: the train that would bring visitors out for the weekend, the dance halls of the '20's and '30's, the very tall old diving platforms, the first cottages and buildings, including teepees and tents. These photos can be found in private homes, restaurants and businesses and at Memorial Hall, but there is not one complete collection, nor does it exist in a public place. Regina Beach Parks and Recreation and the Regina Beach Library aim to collect copies of these images to have them permanently displayed in the library. We will be asking for people's private historical photos as well. In addition, volunteers will be on hand to scan photos during the Culture Days weekend. People seeing the photos hanging in the gallery and wanting to add their own. A reception for the show will be held on Sunday. The photos will remain on display for the month of October. A reception for the exhibition will be held on Sunday.

This tour will reflect on: how the practice of public art has changed in the last 50 years; how the public's expectations of public art has changed over time; and how the City's approach to public art is changing. Play with Clay

Saturday, Sept. 28 – 10:30 am to 2:30 pm

Clay Studio Three

3-527 Main Street

Join artist Eleanor J. Fernandez and learn to hand build clay vessels, clay musical instruments or fashion images in clay. Clay has been used by humans since we were still hunters and gatherers. It is believed that the discovery of using clay vessels for processing/cooking and storage of food led to the domestication of grains, creation of communities supporting agriculture, and ultimately, civilizations. Clay was the main material in people's everyday lives until the emergence of oil-based plastic and synthetic materials. Those related to food were not the only use for clay forms. There were also religious icons and images, talismans, musical instruments, and toys. So, clay and the art of making clay forms has contributed to humans' mental, physical and emotional health!
